REMAN KAUR TALWAR
STUDENT

The PX2 program allowed me to set realistic goals and establish the right motivations and steps to achieve those life goals. PX2 made me think about the barriers and boundaries which I have set for myself and how to overcome these. Definitely looking forward to the next program.

There was a great atmosphere and I felt a sense of warmth and friendliness while I was there. The program introduced me to concepts which impacted my state of mind. I have applied these learnings in my work environment positively. Excellent caliber of lecturers and great mentors.
